IIT Kharagpur · Dual Degree (B.Tech + M.Tech) Mining Engineering · Expected 2027 · CGPA: 7.63 / 10

EXPERIENCE

Full Stack Developer — CareQ (Remote, Startup)

May 2026 – July 2026

- Built and shipped production-ready full-stack features in a cross-functional team using **React, Node.js, Express, and MongoDB**.
- Integrated **REST APIs** end-to-end — from schema design to frontend — reducing manual steps in the onboarding pipeline.
- Delivered features in short sprint cycles, directly impacting a live healthcare product used by real customers.

PROJECTS

ReeWise [Live](#) · [GitHub](#)

React Native · Expo · Node.js · SQLite · MongoDB · Zustand ·

May 2026 – Present

- Published offline-first flashcard app on **Google Play** with 50+ users, 1,200+ cards across 9 subjects; backend deployed on Vercel.
- Engineered **Mutex-based FIFO write queue** serializing SQLite mutations, eliminating deadlock crashes on rapid swipes
- Cut startup latency by 75% (**2s to <500ms**) by optimizing DB seeding to version-mismatch events and batching Zustand hydration.
- Split schema into cards_metadata / cards_content, cutting React Native bridge payload by **80%** during swipe renders.

CompetitorScan [Live](#) · [GitHub](#)

Next.js · TypeScript · Node.js · Groq · Llama 3.3 70B · Puppeteer · SSE ·

June 2026

- AI SaaS for competitive intelligence** — parallel Promise DAG across 5 agents cut execution from ~110s to ~40s (**60% reduction**).
- Implemented pre-truncation footer regex, achieving **100% social handle accuracy** and **50% token reduction** on large pages.
- Isolated LLM fallback state per request via **AsyncLocalStorage**, preventing degradedMode bleeding across concurrent users.

AI Interview Platform [Live](#) · [GitHub](#)

React · Vite · Node.js · MongoDB · Gemini 2.5 Flash ·

May 2026

- Built a **voice-based, CV-aware interview simulator** with AI scoring, behavioral feedback, and real-time speech recognition/synthesis.
- Reduced React CPU overhead by **95%** by isolating AudioWaveform state, eliminating unnecessary parent re-renders during playback.
- Fixed stale closures in Web Speech API via **useRef + useState sync**; cut MongoDB cold-start from 1.5s to **<80ms**.

Local Lead Generation Agent [Live](#) · [GitHub](#)

Python · Flask · SQLite · Gemini 2.5 · Groq · BeautifulSoup · Geoapify ·

June 2026

- Automated end-to-end lead pipeline:** Integrated discovery, SEO audits, and LLM-driven outreach with automated reporting.
- Built **daemon-thread TCP timeout guard** (safe_requests_get) preventing anti-bot tarpits from blocking the pipeline thread indefinitely.
- Built resilient LLM cascade:** Tiered Gemini, Groq, and templates to guarantee 100% email generation uptime during API outages.

TECHNICAL SKILLS

Languages:	C++, Python, JavaScript, TypeScript, SQL
Technologies:	React, React Native, Next.js, Node.js, Express.js, Flask, MongoDB, SQLite
AI / LLMs:	Gemini, Groq, Llama, Prompt Engineering, Multi-Agent Systems
Tools:	Git, GitHub, Firebase, Vercel, Postman, Puppeteer
CS core:	Data Structures & Algorithms, OOP, CN, REST API Design

POSITIONS OF RESPONSIBILITY

Events & Publicity Head — Students' Branding & Relations Cell, IIT Kharagpur

Jan '23 – Mar '25

- Led a 15-member team for **nationwide outreach**, reaching **10,000+ schools** and driving 200+ team registrations (**33% YoY growth**).
- Secured **50+ media** and alumni features nationwide; raised a record **₹5 lakh** in sponsorships — a new organisational benchmark.

UG Coordinator — GYWS, IIT Kharagpur

Dec '22 – Mar '25

- Led 120+ members at GYWS; spearheaded **150+ volunteers** across 20 hostels generating **₹5L** via outreach to **8,000+ rooms**.
- Mentored **250+ students** at Jagriti Vidya Mandir; guided peers from other colleges to establish NGOs and run community events.

HONOURS & ACTIVITIES

- Qualified JEE Advanced** (top 5% of 180K+ candidates); solved 500+ DSA problems on LeetCode.
- Gold — Intra-Hall Volleyball Tournament; completed multiple marathons and an ultramarathon for social causes.
